CAREER OBJECTIVE

Passionate MCA student with strong skills in app and web development, specializing in Flutter, Django, and MERN stack. Eager to contribute innovative solutions in a dynamic organization, combining creativity, analytical skills, and modern technologies.

PROJECTS

Plug & Charge Zone – EV Charging Station Finder App

Tools & Technologies: Kotlin, Firebase, Stripe API

- Developed an Android app to locate and book EV charging stations via interactive maps.
- Integrated Stripe payment gateway for wallet-based transactions.
- Implemented real-time slot booking and updates using Firebase.

Who Wear – T-shirt Shop Web App

Tools & Technologies: Python (Django), PostgreSQL, Bootstrap

- Built a responsive web app with admin & user panels for eCommerce.
- Added size selection, image zoom, cart, reviews, and custom T-shirt design preview.
- Integrated Razor pay for secure online payments.

Personal Finance Tracker

Tools & Technologies: MongoDB, Express.js, AngularJS, Node.js (MEAN)

- Full-featured finance management platform for income, expense, and savings tracking.
- Designed a chart-based dashboard with real-time updates.
- Enabled PDF/CSV export and budget goal management.

Event Booking App

Tools & Technologies: Flutter (Dart), SQLite, WhatsApp API

- Created a bilingual booking app (Gujarati/English) for community events.
- Implemented auto WhatsApp confirmation and Excel export for admins.
- Simple CRUD operations with offline support via SQLite.
